

WORSHIPPING

Jesus

HERE ARE SOME IDEAS:

Use Youtube videos of worship songs with Makaton signs. Introducing these actions to your children will help them to learn the songs through action rather than words.

If your child loves music, why not get some shakers and other instruments out and have a worship session in your home? You could also use ribbons or material to wave for some sensory play whilst you worship.

Play worship music in your home and car! Have it on in the background of daily life! The more the children hear worship songs, the better they will know them and will understand what they are saying (like when they learn Nursery Rhymes!)

Have a go at creating a playlist with some Christian songs on that your family enjoys. You can play them on car journeys or in the house. You could also put Youtube videos on with worship music too!

or check this out!

Follow our Spotify playlist for the accessible songs we use on Sundays at St Peter's Morley!
